Digital Prints will be printed on an Epson 2200 printer using pigment inks and archival digital watercolor paper. Small originals will print very close to the size of the original image. Original images larger than 8 X 10 will be printed smaller than the original when printed on 8 X 10 paper. Original images larger than 11 X 17 will also print smaller than the original when printed on 11 X 17 paper.

All prints will show white space around the edges and will be shipped un-matted and unframed. This ink and paper combination is estimated to have a life span of around 75 years. Due to Mary's choice of materials, it is very likely that the digital prints will far outlive most of the originals. Please allow adequate time for delivery -this is a one-man operation-requests will be filled in the order that they are received.

Print this completed order form and mail with check or money order to:
